Subject: RE: Draft MOA

All - this is the result of the review conducted by the NRC on the draft discussed on the teleconference on April 23rd. Please examine all the changes proposed by the NRC, SHPO and BLM, and let me know by Wed, May 5th whether or not you have any additional comments. Thank you.

**MEMORANDUM OF AGREEMENT
AMONG UNITED STATES NUCLEAR REGULATORY COMMISSION,
WYOMING STATE HISTORIC PRESERVATION OFFICER, BUREAU OF LAND
MANAGEMENT RAWLINS FIELD OFFICE, NORTHERN ARAPAHO TRIBE, EASTERN
SHOSHONE TRIBE,
AND LOST CREEK ISR, LLC
REGARDING ARCHAEOLOGICAL DATA RECOVERY AT 48SW16604,
SWEETWATER COUNTY, WYOMING**

WHEREAS, the U. S. Nuclear Regulatory Commission (NRC) acknowledges and accepts as guidance the Advisory Council on Historic Preservation's (ACHP) "Recommended Approach for Consultation on Recovery of Significant Information from Archaeological Sites," published in the *Federal Register* on May 18, 1999 (vol. 64, no. 95, p. 27085), as part of its revised regulations (36 CFR Part 800) for implementing Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA, 16 U.S.C. 470); and

WHEREAS, the NRC, the Wyoming State Historic Preservation Office (SHPO), Lost Creek ISR, LLC (LCI), and Bureau of Land Management Rawlins Field Office (BLM) (collectively hereafter called "Consulting Parties") agree that site 48SW16604 is a historic property eligible under 36 CFR Part 60.4, Criterion D, that will be adversely affected by mining-related activities as presently planned; and

WHEREAS, the NRC has contacted the Northern Arapaho Tribal Historic Preservation Officer (NATHPO), the Northern Arapaho Tribe (NAT) and the Eastern Shoshone Tribe (EST) and have invited them as Signatories, and they have agreed to participate; and

WHEREAS, the NRC is the lead federal agency for this undertaking (archaeological data recovery at 48SW16604) for purposes of compliance with Section 106 of the NHPA; and

WHEREAS, site 48SW16604 is located on land managed by the BLM Rawlins Field Office, which will carry out certain responsibilities identified in this MOA; and

WHEREAS, the "Treatment Plan for Mitigative Excavation of Prehistoric Site 48SW16604 for the Proposed Lost Creek ISR Project in Sweetwater County, Wyoming" (Treatment Plan), is incorporated herein by reference; and

WHEREAS, in accordance with 36 CFR Part 800.6(a)(1), NRC has notified the ACHP of its adverse effect determination with documentation specified in 36 CFR 800.11(e) and the ACHP has chosen not to participate in the consultation; and

WHEREAS, in accordance with 36 CFR 800.6(b)(1)(iv), NRC shall submit this MOA, along with the documentation specified in 36 CFR 800.11(f), to the ACHP prior to approving the Undertaking in order to meet the requirements of Section 106 and 36 CFR 800.6(b)(1); and

Comment [jwo11]: BLM just commented this morning she thought SHPO had recommended that the THPO not be a signatory since the Tribal Chair is signing. It would seem more appropriate to identify here the Northern Arapaho Tribe. This would also seem to be more in conformance with the government-to-government responsibilities of federal agencies." So the tribal reference may change

Deleted: AL HISTORIC PRESERVATION OFFICER,

Comment [jwo12]: This is new, two tribes are invited signatories now.

Comment [Abb53]: Definition of "undertaking"

Comment [RLC4]: Please note, Data Recovery is NOT the undertaking. The undertaking is the Lost Creek ISR project.

Comment [jwo15]: This is new. NRC is the lead agency for compliance with section 106 of the NHPA. This is also similar to language in the Gas Hills PA

Comment [RLC6]: Has this been done?

Comment [MMH7]: NRC will notify ACHP asap.

Comment [j8]: Undertaking is not defined

WHEREAS, the NRC, the BLM, the Northern Arapaho Tribe, the Eastern Shoshone Tribe, and State of Wyoming and SHPO do not waive their sovereign immunity by entering into this MOA, and each fully retains all immunities and defenses provided by law with respect to any action based on, or occurring as a result of, this MOA; and

WHEREAS, signing of this MOA does not constitute a record of decision or approval of the Lost Creek ISR project, by any of the consulting Federal agencies; and

WHEREAS, this MOA, consisting of eight (8) pages, represents the entire and integrated agreement between the Consulting Parties and supersedes all prior negotiations, representations and agreements, whether written or oral, regarding Section 106 review of the adverse effects of the Lost Creek ISR project on site 48SW16604.

Deleted: seven

NOW, THEREFORE, the Consulting Parties agree that, if approved, the Lost Creek ISR project shall be implemented in accordance with the following stipulations to mitigate the adverse effects of mining and construction activities at site 48SW16604.

Comment [jwo19]: Deleted to response to BLM comment it didn't like the term "current" effects meant.

STIPULATIONS

A. DATA RECOVERY

1. Prior to the construction of any facilities within 200 feet of site 48SW16604, the data recovery program shall be implemented by LCI in accordance with the Treatment Plan prepared by Centennial Archaeology, Inc., dated January 2008, and incorporated into this MOA by reference.
2. The BLM will issue a renewal of the existing Cultural Resource Use Permit for Excavation or Removal for the data recovery to proceed and will monitor data recovery activities as needed.

Comment [jwo110]: This is new based on licensee's request so they could do construction areas more than 200 feet away from the identified historic site prior to completion of the data recovery for the identified historic site

Comment [MMH11]: Parties are all ok with these changes.

Comment [jwo112]: This is new, BLM is committing to issue the permit and monitor the data recovery activities at the site.

B. NAGPRA CONSIDERATIONS

To the best of the Consulting Parties' knowledge and belief, no human remains, associated or unassociated funerary objects or sacred objects, or objects of cultural patrimony as defined in Native American Graves Protection and Repatriation Act (NAGPRA) (25 U.S.C. 3001), are expected to be encountered during data recovery work. However, should human remains be encountered, work will immediately stop in the vicinity of the discovery, the area will be secured, and the archaeological field director will immediately contact the BLM and NRC. The BLM will notify the Sweetwater County Sheriff's office, Sweetwater County Coroner's office and the SHPO. If the human remains are determined to be Native American, the BLM will be responsible for compliance with the provisions of NAGPRA.

Comment [MMH13]: Intent is for BLM take all responsibility for NAGPRA compliance.

Deleted: and

Comment [jwo114]: This is new, BLM has agreed to be responsible for compliance with NAGPRA at the site.

C. REPORTING

1. Upon completion of field work, a letter report briefly describing the results of field work, and a statement of confidence that completed investigations have met data recovery plans and adequately mitigated adverse effects, will be submitted by LCI to the Consulting Parties for their review and comment.

Upon approval of the letter report by the BLM and the SHPO, BLM will issue a formal Notice to Proceed to LCI.

2. A final report detailing results of data recovery efforts and mitigation procedures will be submitted by LCI to the Consulting Parties for review no later than 24 months following the completion of field work, unless the Consulting Parties mutually agree to an extension of this deadline.
3. The consulting archaeologist will prepare a summary journal article to be submitted to the editor of the *Wyoming Archaeologist* on the results of the data recovery within six months of the acceptance of the final data recovery report. The article should consist of summary information and results of the data recovery; approximately three to five standard 8 1/2 x 11 pages of text, two or three photographs and one or two illustrations. This information should be derived directly from the data recovery report and no new research is required. The editor of the *Wyoming Archaeologist* is not required to publish the report in the journal. Submission of the article by the consulting archaeologist completes the responsibility under this MOA. If data recovery **does not** provide information appropriate for a journal publication, consulting archaeologist will notify LCI and all parties will consult on the appropriateness of this stipulation. The parties will document the discussion and decision made in writing. The publication of the summary of the results of the excavations will make the information available to the general public.

Comment [MMH15]: Patrick needs to confirm the "notice to proceed" language. 4/30/10 Patrick confirmed this language is ok with BLM

Comment [jwo116]: Again BLM is going to be lead to review the work and issue the letter to proceed after com of data recovery at the site.

Comment [MMH17]: All agreed to extend the time from 6 to 24 months.

Comment [jwo118]: In this case, all parties is the signatories to the MOA which would include NRC.

D. PERMITTING AND INSPECTIONS

1. NRC shall require as a condition of any license issued to LCI, that LCI complies with the cultural resource Treatment Plan described in **STIPULATION A.1.** and the provisions in this MOA.
2. Any NRC license conditions will be enforced subject to the extent of NRC's regulatory authority and as NRC determines to be appropriate.

E. AMENDMENTS

1. Any Signatory to this MOA may request that it be amended, whereupon the Signatories will consult to reach agreement. Such amendment shall be effective upon the signature of all Consulting Parties to this MOA, and the amendment shall be appended to the MOA as an Appendix.

MOA among NRC, SHPO, BLM, LCI, NATHPO, NAT and EST Archaeological Data Recovery at 48SW16604, Sweetwater County, Wyoming.

2. Modifications to the Treatment Plan as described in **STIPULATION A.1** may be executed upon concurrence of all Consulting Parties as long as no modifications to the body of the MOA are required. This modification will not require a formal amendment to this MOA as per **STIPULATION E.1**.

F. DISPUTE RESOLUTION

1. Should any Signatory to this MOA object within 30 days to any activity pursuant to this MOA, NRC shall consult with the objecting party to resolve the objection.

If NRC determines the objection cannot be resolved, NRC shall forward all documentation relevant to the dispute to the ACHP. Any comments or recommendations received from the ACHP will be forwarded to the Signatories for consideration.

Resolution of the objection will be documented in a written resolution and distributed to all Signatories by the NRC. If a Signatory fails to respond within 30 days of receipt of the written resolution, concurrence with the resolution will be assumed by the other parties and the resolution will go into effect.

If resolution of the objection requires an amendment to the MOA, it will be done per Section E of this agreement.

2. Nothing in this Section shall be construed or interpreted as a waiver of any judicial remedy that would be available to any party of this MOA.
3. Nothing in this Section shall be construed or interpreted to apply to BLM's or NRC's enforcement actions related to compliance with BLM's or NRC's regulations or license conditions.

Comment [jwo119]: Revised to use the term signatory to be consistent with the rest of the paragraph

Comment [jwo120]: This is new with NRC taking the lead for the process of resolving disputes under the MOA and sending things to the ACHP. The question is ... does this cross the line for you where you think NRC's responsibilities should go if we have BLM responsible for the issuance of the excavation permit and monitoring the data recovery? It is also consistent with language in the Gas Hills PA and PFS MOA

Comment [MMH21]: Added this clause. Dispute will be documented and distributed. Is this clear to everyone?

G. TERMINATION

Signatories to this MOA may initiate termination by providing written notice to the other Signatories of their intent. After notification by the initiating Signatory, the remaining parties shall have 60 business days to consult to seek agreement on amendments or any other actions that would address the issues and avoid termination. If such consultation fails, the termination will go into effect at the end of this 60 day period, unless all the parties agree to a longer period.

In the event of termination, the NRC will comply with 36 CFR Part 800, Subpart B.

Comment [j22]: The language in the MOA bounces back and forth from "Consulting Parties", "Parties", and "Signatories". Seems best to pick and define a single term and stick with it.

Comment [RLC23]: For this undertaking, NRC is the lead federal agency. This language is cleaner for this part. For instance, what is SHPO's "respective compliance" with 36 CFR Part 800? What compliance responsibilities do any of the other signatories have for NRC's undertaking outside of this MOA?

Deleted: Signatories will each be responsible for their respective compliance

Comment [jwo124]: This revision was made to be consistent with the Gas Hills PA and PFS MOA. If the agreement is terminated the signatories will still have to comply with the regulatory provisions, not just NRC.

H. DURATION OF AGREEMENT

1. This MOA shall remain in effect for three years from its date of execution by the Signatories (last date of signature), or until completion of the work stipulated, whichever comes first, unless extended by agreement among the Signatories pursuant to **STIPULATION C.2.**

GENERAL PROVISIONS OF THE AGREEMENT

- A. ENTIRETY OF AGREEMENT.** This MOA, consisting of seven pages, represents the entire and integrated agreement between the parties and supersedes all prior negotiations, representations and agreements, whether written or oral.
- B. PRIOR APPROVAL.** This MOA shall not be binding upon any party unless this MOA has been reduced to writing before performance begins as described under the terms of this MOA, and unless this MOA is approved as to form by the Attorney General of the State of Wyoming, or his representative.
- C. SEVERABILITY.** Should any portion of this MOA be judicially determined to be illegal or unenforceable, the remainder of the MOA shall continue in full force and effect according to its terms, and any party may renegotiate the terms affected by the severance.
- D. THIRD PARTY BENEFICIARY RIGHTS.** The parties do not intend to create in any other individual or entity the status of third party beneficiary, and this MOA shall not be construed so as to create such status. The rights, duties and obligations contained in this MOA shall operate only between the parties to this MOA, and shall inure solely to the benefit of the parties to this MOA. The provisions of this MOA are intended only to assist the parties in determining and performing their obligations under this MOA. The parties to this MOA intend and expressly agree that only parties Signatory to this MOA shall have any legal or equitable right to seek to enforce this MOA, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this MOA, or to bring an action for the breach of this MOA.

Deleted:

Execution of this MOA by NRC, SHPO, NATHPO, BLM, Lost Creek ISR, LLC, NAT, and EST the submission of documentation and filing of this MOA with the ACHP pursuant to 36 CFR §800.6(b)(1)(iv) prior to the Signatories approval of the undertaking, and implementation of its terms, are evidence that the Signatories has taken into account the effects of this undertaking on historic properties and afforded the ACHP an opportunity to comment.

Signatures: In witness thereof, the parties to this MOA through their duly authorized representatives have executed this MOA on the days and dates set out below, and certify that they have read, understood, and agreed to the terms and conditions of this MOA as set forth herein.

The effective date of this MOA is the date of the last signature affixed to this page.
