Subject: Westinghouse Electric Company Updated Application to Amend the
AP1000 Design Certification Rule

Westinghouse Electric Company is pleased to submit an updated application to amend the AP1000 Design Certification (10 CFR 52 Appendix D). This application update is based on the AP1000 Design Control Document (DCD) Revision 18, and includes necessary changes to address NRC comments raised during the review of prior updates to the amendment application to the certified design, as well as other changes consistent with 10 CFR 52.63. Westinghouse letter dated May 26, 2007 submitted the application to amend the AP1000 Design Certification, which was updated by Westinghouse letter dated September 22, 2008.

This letter and enclosures provide the prescribed information pursuant to 10 CFR 52. As part of DCD Revision 18, Westinghouse has included a "roadmap" that identifies the appropriate 10 CFR 52.63(a)(1) criteria that justifies inclusion of the updated information in the amendment currently under review.

The two enclosures contain the electronic files, pursuant to 10 CFR 50.30(b), providing APP-GW-GL-700, "AP1000™ Design Control Document", Revision 18, for the application under Oath of Affirmation (Attachment 1).

- Enclosure 1 contains sensitive unclassified non-safeguards information relative to the physical protection of an AP1000 Nuclear Plant that should be withheld from public disclosure pursuant to 10 CFR 2.390(d).
- Enclosure 2 is the redacted version of Enclosure 1.

The files for the two versions are provided on separate CD-ROMS to facilitate handling by the public document room. The files and directory structure on the CD-ROMS are intended to satisfy the NRC requirements for electronic submittals.

The enclosures are provided in full compliance with the Westinghouse Quality Management System as approved by the NRC.

D063
NRD

Westinghouse looks forward to continued NRC progress reviewing the amendment to the AP1000 Design Certification Rule, as well as the successful generation of the NRC Final Safety Evaluation Report.

Please direct any questions related to this amendment application to R. F. Ziesing, Director, U.S. Licensing at 412-374-2035.

Very truly yours,

S. D. Rupprecht
Vice President
New Plant Product Services
