Subject: Additional Noise Data

Alan and Stephanie,

One of the questions we received with the technical comments for the Environmental Report was with regard to expected noise levels. Unfortunately, we provided an answer to you before having a chance to review the recently issued NUREG 1910. If you want additional data on noise levels from various pieces of equipment please see Table 4.2-1 on page 4.2-38 of the NUREG.

Regards,
John
