Subject: RE: Groundwater Impact SRM

Bill : this information on groundwater history at ISR sites is very helpful. I do think it should be provided to EPA. We will discuss referencing it in our SEISs as well

We can talk about this at 2:00 but I have only been able to skim these. Please have a scheduler sent.

Thanks

Bill,

we were thinking of meeting this afternoon to discuss how we are going to respond to EPA's second comments. are you available after 2PM today?

Haimanot

This is public and should be sent to EPA as it may answer some of their questions.

All,

At the request of Bill, attached are the links to the SRM which we prepared in response to the issue of impacts to groundwater from the December 11, 2008 Commission Briefing on Uranium Recovery

Commission Memorandum: ML091770187
Attached Report: ML091770385
