Note:

Keyword used **10 CFR 52.63 Justification**

(i) Regulate: (i) Is necessary either to bring the certification information or the referencing plants into compliance with the Commission's regulations applicable and in effect at the time the certification was issued;

(ii) Protect: (ii) Is necessary to provide adequate protection of the public health and safety or the common defense and security;

TIER 2 REVISION 17 CHANGE ROADMAP (Cont.)

<u>Section</u>	<u>Page No.</u>	<u>Type of Change</u>	<u>10 CFR 52.63 Justification Keyword (note)</u>	<u>Reference NRC Letter</u>
(iii) Simplify:		(iii) Reduces unnecessary regulatory burden and maintains protection to public health and safety and the common defense and security;		
(iv) Explain:		(iv) Provides the detailed design information to be verified under those inspections, tests, analyses, and acceptance criteria (ITAAC) which are directed at certification information (i.e., design acceptance criteria);		
(v) Correct:		(v) Is necessary to correct material errors in the certification information;		
(vi) Improve:		(vi) Substantially increases overall safety, reliability, or security of facility design, construction, or operation, and the direct and indirect costs of implementation of the rule change are justified in view of this increased safety, reliability, or security; or		
(vii) Standardize:		(vii) Contributes to increased standardization of the certification information.

Note:

Keyword used

10 CFR 52.63 Justification

- (i) Regulate: (i) Is necessary either to bring the certification information or the referencing plants into compliance with the Commission's regulations applicable and in effect at the time the certification was issued;
- (ii) Protect: (ii) Is necessary to provide adequate protection of the public health and safety or the common defense and security;
- (iii) Simplify: (iii) Reduces unnecessary regulatory burden and maintains protection to public health and safety and the common defense and security;
- (iv) Explain: (iv) Provides the detailed design information to be verified under those inspections, tests, analyses, and acceptance criteria (ITAAC) which are directed at certification information (i.e., design acceptance criteria);
- (v) Correct: (v) Is necessary to correct material errors in the certification information;
