Mr. Sprague,

I am preparing the NEPA document for the licensing of an in-situ uranium recovery facility (Lost Creek) in NE Sweetwater County. I noticed (on-line) on your map entitled "Land Areas of Wyoming Designated Unique and Irreplaceable or Rare and Uncommon" that the Chain Lakes WHMA lies just south of the Lost Creek site. Can you tell me which of the four characteristics (unique, irreplaceable, rare or uncommon) the Chain Lakes WHMA is? And, who designated it so? Thank you.
