Thanks, Jim.

Jill's still here and I am sure she will pass along the copy she gets to me. However, a CD version would be very helpful as well.

I appreciate the advance notice of the Fed Reg publication.

Thank you,  
Shannon

Dear Shannon,

I know we've been sending you several emails regarding the GEIS, but one you may not have gotten is that we expect to notice the availability of the final GEIS by press release on Thursday, June 4th, and in the Federal Register on Friday, June 5th.

A hard copy of the GEIS was sent to Jill Morrison's attention, but I was wondering if you would like a copy sent to you as well. We will have the GEIS available on CD if you prefer that format. The GEIS is currently available via NRC's public document management system (ADAMS) using the accession numbers ML091480188 and ML091480244.

An email back to me with your preference (to receive or not, and the format) will be fine.

Jim
