Attachments: Uranium One Talking Points ERB.doc

The attached should incorporate Keith's comments on the introduction and the GEIS section as well as some minor revisions that I made earlier today. Since Keith moved the series of bullets on what we are doing to ensure timely reviews from the GEIS section to the introduction, I did add bullets to this section regarding issuance of the acquisition strategy and use of the GEIS as further efficiencies.

Bill- you will have to incorporate Keith's comments into your section and send to OGC.
