No news yet on the jurisdictional determination but we should hear back very soon.

With regard to the sage grouse monitoring plan, we have not re-written the monitoring plan for two reasons. First and most importantly, the proposed stipulations will not change how we monitor the bird. Second, the proposed stipulations have not been approved by the governor yet so they have not taken affect.

Hope this helps,

John

John,

Sorry to keep bothering you, but, have you received the official determination (the ADJ) from the USACOE on jurisdictional waters in your area of the Great Divide Basin? Thanks.
