Alan,

This email was originally from Bob Budd who chaired the Governor's Sage Grouse Implementation Team. The attachments include the final recommendations of the team that were sent to the Governor. I believe the Governor will ultimately implement the recommendations through an executive order but as of this email that order had not been issued.

The BLM is embarking on an EIS to revise the Resource Management Plans for several districts in Wyoming so they can implement, at least to some degree, the recommendations of the Governor's Sage Grouse Implementation Team. The final public scoping meeting is August 13th and they hope to issue a ROD by the Fall of 2012. We have been instructed by Chris Keefe of BLM that the Lost Creek Project will be reviewed under the existing RMP but with consideration of sage grouse protection measures outlined in BLM Instruction Memorandum WY-2010-012.

Regards,
John

Good Morning!

G/67

On behalf of the Governor's Implementation Team, I would like to thank you for your input, dedication, and commitment to the process of developing a statewide conservation strategy for Sage-grouse. Your input, honesty, and expertise added greatly to the final product, one that we believe will assure the future of Sage-grouse, and our economy.

I realize that not every group was rewarded with 100% of their desires, but I do believe the team was fair, consistent, and acted in the best interests of the State of Wyoming. We could not have done this without your help.

Thanks again, and have a great day!

Bob

P.S. - The final stips and letter to the Governor are attached. They are also available on the Governor's website.
