Dear Johari Moore:

I would like to clarify the 92-1860 Kunia Road address which your December 2010 Draft Supplement refers to several times as a possible alternative site for the irradiator proposed by Pa'ina Hawaii LLC.

Since the proposed site consists of a relatively large 122 acres, the City has given it all of the following addresses: 92-1700, 92-1770, 92-1780, 92-1800, 92-1810, and 92-1860 Kunia Road. Thus, for anybody looking up the 122-acre site, it can be found under all of these addresses. Google also pinpoints upon the same 122-acre site under any of those addresses.

For your information I am attaching a google map showing the entire commercial area at 92-1860 as well as pinpointing the exact location Pa`ina is interested in.

Thank you very much.

Michael Kohn
