NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60504-352

NOV 24 2010

Douglas Cooper  
Radiation Safety Officer  
Orchard, Hiltz & McCliment, Inc. (OHM)  
P.O. Box 9  
Houghton, MI 49930

Dear Mr. Cooper:

Enclosed is Amendment No. 01 to your NRC Material License No. 21-32793-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions and changes made. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887.

**In your correspondence to us dated August 31, 2010, you indicated that you wished to release for unrestricted use a former address of use and area of use, located at 46479 US Highway 41 Houghton, Michigan.**

**The NRC staff has reviewed your final status surveys, which consisted of leak test results taken from your gauging devices. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your former address of use and area of use, located at 46479 US Highway 41 Houghton, Michigan, and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.**

**Based on these conclusions no further remediation or actions with respect to NRC regulated material is required for this address of use and area of use and they are suitable for unrestricted use.**

**Also, we removed Conditions No. 13 and 23 from your license as these are redundant now that your license has possession limits. This change also required that subsequent conditions in your license be renumbered.**

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

D. Cooper

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael G. Herr". The signature is stylized with a long horizontal stroke at the end.

Michael G. Herr, CHP  
Materials Licensing Branch

License No. 21-32793-01  
Docket No. 030-38284
