Dear Mr. McCann,

Pursuant to our recent discussions, I am writing on behalf of the S.D. Warren Company ("S.D. Warren") to request that the U.S. Nuclear Regulatory Commission (the "NRC") add a Hidrodensimeter Viatec HDM 4 portable density gauge containing sealed sources containing 3 mCs-137 and 300 mCi of Am-241 (**Serial # 1007/Model# 455**) to S.D. Warren's Materials License (Materials License #21-09339-01). Upon confirmation from the NRC that this source has been added to its license, S.D. Warren intends to dispose of the source consistent with NRC regulations.

Thank you for your assistance in this matter. Please feel free to contact me with any questions or comments.

Sincerely,

Mike Wolffis  
Radiation Safety Officer  
S.D. Warren Company

**Jones, Rosemary**
