SUMMARY

This refers to the letter dated September 8, 2010, and the conversation between Roy Laisure and Michael G. Herr on November 22, 2010.

In the letter dated September 8, 2010, it was requested that you be authorized to use Instro Tek Model 3500. We are unable to approve your request at this time due to needing possession limits for each radionuclide you wish to possess and already do possess.

**Please note that certain sections of NUREG 1556 Vol. 1, Rev. 1, "Consolidate Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses," has change since the last revision.**

**We now require a total possession limit for each radionuclide requested, as well as providing the "per source" activity you need, which should match the Sealed Source and Device Registry certificate procured by the vendor. Please provide this information. It is acceptable to request more sealed sources than you may actually need immediately, to allow for some growth, so long as the request is reasonable and realistic.**

**Upon receipt of your response we will resume our review, Address your written response to my attention at the above address and please be sure to reference Control No. 573501 to facilitate proper handling in our office. As a reminder, please provide the information requested in writing, accompanied by a transmittal letter appropriately dated and signed by a senior management official.**

ACTION REQUIRED

Please submit the requested information within 5 calendar days (by November 27, 2010) by referencing control number **573501** to facilitate proper handling. Upon receipt of your response we will resume our review. Address your written response to my attention at the above address.

PLEASE DIRECT ANY QUESTIONS YOU MAY HAVE TO MICHAEL G. HERR, CHP at 630-829-9752 OR AT (800) 522-3025, EXT. 9752.
