

NRC FORM 699 (9-2003)		U.S. NUCLEAR REGULATORY COMMISSION		DATE 12/08/2010
CONVERSATION RECORD				TIME 4:15pm
				NAME OF PERSON(S) CONTACTED OR IN CONTACT WITH YOU Mark Whittaker
ORGANIZATION Energy Solutions		SUBJECT UX-30 Renewal RAIs		
SUMMARY (Continue on Page 2) <p>The call commenced at approximately 4:15 P.M. Two RAIs were discussed. The first RAI dealt with different manufacturing drawing numbers being listed on the Certificate of Compliance as compared to the Safety Analysis Report (SAR). Discussion indicated this difference may be due to the fact that two versions of the SAR exist: a Proprietary version and a non-Proprietary version. Mr. Whittaker believed the drawing numbers differed between the two SAR versions and committed to investigate the matter. The second RAI dealt with the drawing symbol used to indicate the inside diameter of the packaging. Although the inner diameter shown on the drawing corresponded to the outer diameter of a uranium hexafluoride cylinder, the drawing symbol used to identify the packaging inner diameter is normally associated with a radial dimension. Mr. Whittaker agreed to investigate this as well. Mr. Whittaker committed to providing responses to these RAIs as soon as possible after receiving the RAI letter. The call was completed at approximately 4:45 P.M.</p>
