

NRC FORM 7 (8-2010) 10 CFR 110		U.S. NUCLEAR REGULATORY COMMISSION		APPROVED BY OMB: NO. 3150-0027	EXPIRES: 08/31/2012
APPLICATION FOR NRC EXPORT OR IMPORT LICENSE, AMENDMENT, OR RENEWAL <i>(See Instructions on Pages 4 and 5)</i>				Estimated burden per response to comply with this mandatory collection request: 2.4 hours. This submittal is reviewed to ensure that the applicable statutory, regulatory, and policy considerations are satisfied. Send comments regarding burden estimate to the Records and FOIA/Privacy Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to infocollects.resource@nrc.gov , and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0027), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

December 14, 2010

Mr. Scott W. Moore, Deputy Director
Office of International Programs
U. S. Nuclear Regulatory Commission
11555 Rockville Pike
Rockville, Maryland 20852-2738

Dear Mr. Moore:

EXPORT LICENSE APPLICATION FOR THE DEPARTMENT OF ENERGY SHIPMENT OF ENRICHED URANIUM TO INSTITUT LAUE LANGEVIN FOR USE IN THE HIGH FLUX REACTOR (XSNM3633)

Reference is made to my March 3, 2010, letter, subject as above, and application XSNM3633 to export enriched uranium for use in the INSTITUT LAUE LANGEVIN High Flux Reactor (HFR).

Based on feedback received from a review of application XSNM3633 (DOE reference ILL-EU10), the United States Department of Energy (DOE) has updated the application for a license to export enriched uranium feedstock to the Compagnie pour l'Etude et la Réalisation de Combustibles Atomiques (CERCA) Romans fuel fabrication facility, and for subsequent transfer as enriched uranium reactor fuel reloads to the INSTITUT LAUE LANGEVIN (ILL) High Flux Reactor (HFR) located in Grenoble France (Enclosure 1). ILL's supporting information was also updated to more accurately reflect ILL current enriched uranium inventories, the time lines for manufacturing the ILL fuel reloads, and planned reactor operation (Enclosure 2). The quantity of enriched uranium requested has been reduced and the ship date has been extended through 2012. Please replace my application and the supporting information previously received by the Nuclear Regulatory Commission (NRC) on March 3, 2010, with the enclosed application and supporting information.

It has been determined that the export license application is unclassified, non-sensitive; however, Enclosure 2 provides supporting sensitive information provided by ILL that cannot be released to the public.

The proposed export is required to support continuing operations of the ILL HFR pending qualification of a replacement fuel. ILL is actively working with DOE to qualify low enriched uranium fuel to support conversion of the HFR reactor. In the interest of supporting continued operation of the HFR and its research program, the NNSA Y-12 Site Office requests that the review process be executed to support a delivery in early calendar year 2012.
