Subject: South Texas nuclear plant proposal

Dear NRC,

I am very concerned about the proposed location of this particular plant in terms of its effect on freshwater inflows from the Guadalupe River to San Antonio Bay and the Refuge. Please have Exelon detail how it will secure the massive volumes of water required to operate the proposed nuclear plant, and what the impact of that water usage will be on the endangered Whooping Crane. Please carefully the environmental impact of this proposed nuclear power plant on whooping cranes, the health of the bays in the coastal communities. Thank you.

Regards, Bill Forbes
Nacogdoches, Texas
