North Anna, Unit 3
Dominion
Docket No. 52-017
SRP Section: 13.07 - Fitness for Duty (Future SRP Section)
Application Section: 13.7.1

QUESTIONS for Integrated Security Coordination and Policy Branch (NSIR/DSP/ISCPB)

13.07-***

Under 10 CFR 52.79(a)(44), the Applicant's FSAR must contain a description of the fitness for duty (FFD) program required by 10 CFR Part 26 and its implementation. The Applicant intends to update its FFD program for the construction phase to comply with NEI 06-06. If future revisions to NEI 06-06 are endorsed by the NRC, does the Applicant intend to update its FFD program for the construction phase to comply with certain clarifications, additions, and exceptions in these future, endorsed revisions, as necessary?"

13.07-***

Under 10 CFR 52.79(a)(44), the Applicant's FSAR must contain a description of the fitness for duty (FFD) program required by 10 CFR Part 26 and its implementation. Describe how the COL Application, FSAR, Part 2, Table 13.4-201, item 20, (Sheet 13-58), comports with 10 CFR 26, Sections 26.3 and 26.4, and guidance in NRC's letter to the Nuclear Energy Institute dated December 2, 2009, entitled "Status of U.S. Nuclear Regulatory Commission Review and Endorsement of NEI 06-06, 'Fitness for Duty Program Guidance for New Nuclear Power Plant Construction Sites'"? In particular, provide site-specific information to clearly and sufficiently describe your operational FFD program, in terms of the scope and level of detail to allow as reasonable assurance of finding of acceptability. For example, will North Anna base its Section 26.4(a) and (b) FFD program for Behavioral Observation Program and drug and alcohol testing on an operational unit program or develop its own specific program? Please describe substantial differences, if any.

13.07-***

Under 10 CFR 52.79(a)(44), the Applicant's FSAR must contain a description of the fitness for duty (FFD) program required by 10 CFR Part 26 and its implementation. Describe why the licensee is proposing license conditions for FFD when Part 26 provides explicit implementation requirements. Please refer to the RCOLA submittal.
