To Whom It May Concern:

SUBJECT: License 21-24958-01

This is to inform the Nuclear Regulatory Commission (NRC) that I am retiring on the first of the year and that our license (21-24958-01) will be without a Radiation Safety Officer (RSO) at that time. Mr. Warren Rogers, my logging assistant, will be responsible for source inventories. Management has been made aware that if they hire a replacement, they will have to submit a license amendment for a new RSO using Form NRC 313. I have also informed management that if they choose to dispose of or transfer the sources they must first get NRC consent in writing before transferring §30.34(b) and submit a Form 314 with recent leak test documentation before the license can be terminated. Future contact in management for the license is:

Burrell (Pete) Shirey
635 Filley Street
Lansing, Michigan 48906
Phone: 517-335-6415

If you have any questions, please contact Mr. Shirey.

Sincerely,
