Dear Mr. Keck:

Enclosed is Amendment No. 40 amending NRC Material License No. 24-13365-01 in accordance with your letter dated December 2, 2010. Please note that the changes made to your license are printed in **bold** font.

This amendment approves the release of building D located on 7200 East ABC Lane in Columbia, MO for unrestricted use. Based on review of the information provided in your request, we have concluded that any residual byproduct material remaining in the facility is below the NRC's unrestricted use dose limits specified in 10 CFR Part 20, subpart E "Radiological Criteria for License Termination."

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(iii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and the enclosure will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9621.

Sincerely,

A handwritten signature in cursive script, appearing to read "Katie Streit".
