**Subject:** Links to Transmission Line figures

Anne

During our meeting on October 20, Mr. Steele requested we send any figures for the transmission line routes that would provide better details of the locations of the routes. We've looked at the figures that we have as a part of the combined license application and determined that they probably wouldn't be detailed enough for your purposes. I can send them to you. But they're essentially just somewhat better quality versions of the figures I showed you during our meeting.

That said, there are more detailed documents available regarding the routes in FPL's application to the State for a site certification. I've provided links to the subject documents below for both the western and eastern corridors (both of which would be used for this project). There are good figures near the end of each of these files. I hope that these links will give you the information you need. If you have any questions, please let me know.
