Subject: Models of the gauges

(NOTE: This will be used as the Documents Title in ADAMS)

Item 9 of the license did not include the manufacturer and the model numbers of the gauges. I called the RSO-designate to provide the needed information so that the license could be updated along with the change of RSO.

The RSO stated that he will provide the inventory list of the gauges that they currently possess. I told him that he could fax the information and provided him with control number and the LAT fax number.

He promised to fax the information within a week.
