Subject: Debris Piles & Conclusions Document

Jim,

I have reviewed your December 17 request to withhold the "Debris Piles & Conclusions" document from public disclosure. I have determined that it contains substantial amounts of publicly available information. For example, there are numerous statements which reference public NUREG documents. Please submit a version of the "Debris Piles & Conclusions" document that can be made publicly available by January 13, 2011.

Thanks,

Blake Purnell
