Subject: Public hearing for energy solutions 12/30/2010--for Secretary of the Commission

Attention Secretary,

I am opposed that the U.S. import any waste from any foreign country for any reason whether to process it or bury it. Bringing hazardous material across any body of water and to any place in the U.S. is dangerous and can pollute. Human error can happen...and I've read articles where Energy Solutions have just duct taped leaks and sent it on to where ever. They are not a professional and caring company. They only care about making money --no matter where they can get business from.

Any foreign country should take care of their own waste...to process it or bury it. It's not the U.S.'s problem. Suggest that Ener. Sol. set up a processing and disposal site in Europe to take care of their waste...not pass it off on the U.S. and possibly pollute the earth's waters and land by transporting it so far. Really a greedy money making idea that E.S. has at the expense of the American people and mother earth.

Thank you.

Sincerely,
Carolyn Potter
Sandy, Utah
