General Comment

I request that you deny this request for a license to import radioactive waste.

No one knows the cumulative effect of burning this waste at several different sites. As a resident of Knoxville who often travels to Oak Ridge, I am concerned about what this is doing to air quality. There are known toxins that are released from burning, and we already have huge problems with air quality in this area because of our topography and the proximity of the coal burning power plants.

Additionally, I don't believe the US should be importing wastes from other countries. Each country should be responsible for managing their own wastes. It is not right to place US citizens' health at risk for the sake of a company's profit.

For these reasons, I ask you to deny this license.
