**SUBJECT: NuScale Request to locate Safeguards Information (SGI) at Anatech, Inc. (NuScale contractor) facility (NRC Project No. 0769)**

Reference: NRC Order Imposing Safeguards Information Protection Requirements for Access to Safeguards Information (SGI) Dated June 2, 2010

Dear Mr. Norman:

The reference Order requires NuScale to notify the NRC prior to changing the storage location of SGI. NuScale requires the ability to store SGI including Aircraft Impact Analysis (AIA) at a contractor (Anatech, Inc.) location. Anatech will be performing part of the aircraft impact analysis as a contractor to NuScale. This will require access to the AIA information. Anatech's offices are located at:

5435 Oberlin Dr.  
San Diego, CA 92121

Anatech's Safeguards Information program and physical SGI infrastructure has been reviewed by NuScale during a site visit on November 3, 2010, and found to provide equal protection of SGI as NuScale's program. It has also been reviewed against the requirements of 10 CFR 73.22. Anatech has an existing SGI program that has been audited by other NRC licensee's. Anatech's Safeguard Storage Containers (SSC) are GSA approved file cabinets located in locked, controlled access rooms. One of these rooms also contains an isolated computer network for performing analysis. The removable hard drives used in the computer are stored in the SSC located in this room.

Based on the aforementioned information, NuScale requests NRC approval to store SGI at a contractor location, Anatech, Inc. If you have any questions, please feel free to contact Ken Harris at (541) 207-3931 or by emailing Ken at [kharris@nuscalepower.com](mailto:kharris@nuscalepower.com).

Sincerely,

A handwritten signature in black ink, appearing to read 'Edward G. Wallace'.
