Dear Mr. Senter:

It has come to our attention that your NRC Material License No. 24-32795-01, issued on July 11, 2010 contained errors.

**We removed Condition Nos. 14, 16, and 19 from your license. Condition No. 14 applied to devices that contain detector cells; not applicable to your license since none of the devices you possess contain detector cells. Condition No. 15 requirements are redundant with Subitem No. 7. A, therefore this condition is not necessary.**

**Since your license now has specific possession limits, we removed Condition No. 19, because to continue it would be redundant. The removal of these license conditions required renumbering of subsequent license conditions.**

Enclosed is the corrected copy of your license reflecting the changes we have made. We apologize for any inconvenience these errors may have caused.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "M. G. Herr".
