Mr. Timothy S. Rausch
Senior Vice President and Chief Nuclear Officer
PPL Susquehanna, LLC

Berwick, PA 18603-0467

SUBJECT: INITIAL OPERATOR LICENSING WRITTEN EXAMINATION APPROVAL
(SUSQUEHANNA STEAM ELECTRIC STATION, UNITS 1 AND 2)

Dear Mr. Rausch:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing written examinations at the Susquehanna Steam Electric Station, Units 1 and 2. Please note that operating test approval has been communicated under separate correspondence.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. Arthur S. Fitch, Nuclear Training Manager. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject written examinations in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 9, Supplement 1. Your staff will administer the written examinations during the week of January 24, 2011. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (610) 337-5046.

Please contact your Chief Examiner, Mr. John Caruso, at (610) 337-5389, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination) specified for each applicant.

Sincerely,
