**Subject:** CLARIFICATION REGARDING YOUR LICENSE AMENDMENT REQUEST, CONTROL 573919

Docket No. 030-03235  
Control No. 573919

License No. 40-01683-01

Dear Dr. Prasad:

This is in reference to your letter dated November 8, 2010 requesting to amend your Nuclear Regulatory Commission License 40-01683-01. I wanted to clarify the following:

1. Removing the individuals as requested would eliminate all Authorized Users for the uses pertaining to 35.300 procedures and in-vitro studies authorized under 31.11. Therefore, we would have to eliminate the 35.300 and 31.11 authorizations from your license. Please confirm if this is your intention. If it is not your intention to remove these authorized uses, please propose a qualified individual to perform 35.300 procedures and 31.11 in-vitro studies.
2. Please note that if the 35.300 and 31.11 authorizations are removed from your license, you would have to request an amendment to add a qualified individual for the aforementioned uses before you perform any procedure authorized under 35.300 or in-vitro study permitted under 31.11.

We will continue our review upon receipt of this information. Please reply to my attention at the Region IV Office and refer to Mail Control No. 573919. You can reply to this email or you may also fax the response to 817-860-8263. If we do not receive a reply by January 10, 2010, we will assume you wish to eliminate 35.300 and 31.11 authorizations from your license.

If you have any technical questions regarding this deficiency letter, please e-mail or call me at (817) 276-6596.

Sincerely,

***Lizette Roldán-Otero, Ph.D.***
