Report on the Analysis of the Shoreline Fault Zone, Central Coastal California

Dear Commissioners and Staff:

On January 5, 2010, representatives from Pacific Gas and Electric Company (PG&E) met with the NRC to discuss the California Central Coast Shoreline Fault Zone which is in close proximity to the Diablo Canyon Power Plant (DCPP) and the DCPP Independent Spent Fuel Storage Installation (ISFSI). During this meeting PG&E agreed to provide a final report of the analysis of the Shoreline Fault Zone.

Enclosure 1 provides PG&E's "Report on the Analysis of the Shoreline Fault Zone, Central Coastal California." Questions concerning this report should be directed to Mr. Loren Sharp at (805) 545-4891.

PG&E makes no regulatory commitments as a part of this submittal.

Sincerely,

James R. Becker
