

## **ERIC M. WEINER**

### **SUMMARY:**

Mr. Weiner possesses extensive experience in the management and implementation of various programs, including quality assurance and quality control (QA/QC) functions. He has significant project management experience and has managed and trained QC inspectors and auditors. He has performed auditing, surveillance of Preliminary and Pre-operational testing of NSSS Systems and components, supplier qualification, evaluation, inspection, nondestructive examination /testing (NDE/NDT), and quality program development activities. He has performed various software QA related activities, including development of validation and test plans, code verification, and software quality audits.

Mr. Weiner is currently assigned to the Quality Management Services organization located in Marlborough, MA and has been assigned to AREVA Enrichment Service to serve as the Quality Assurance Manager for the design and construction of the Eagle Rock Enrichment Facility to be located in Idaho Falls, ID.

### **EDUCATION:**

BS, Marine Engineering, Massachusetts Maritime Academy, 1980  
 Lead Auditor Training, Gilbert Commonwealth, 1984  
 Basic Codes and Standards Training, General Physics, 1984  
 Corrective Action and Root Cause Analysis, Northeast Utilities, 1994  
 Environmental Qualification of Class 1E Electrical Equipment, Northeast Utilities, 1990  
 Welding for Engineers and Inspectors, Northeast Utilities, 1990  
 Leadership and Learning, Northeast Utilities, 1995  
 American Society of Mechanical Engineers (ASME) Code Sections III and XI, Northeast Utilities, 1988  
 Mechanical Inspector Training, Northeast Utilities, 1987-1995  
 Electrical Inspector Training, Northeast Utilities, 1993-1995  
 Creative Report Writing, Northeast Utilities, 1992  
 Limitorque Motor-Operated Valve (MOV) Maintenance and Operation, Niagara Mohawk, 1986  
 Boiling Water Design Familiarization, Niagara Mohawk, 1986  
 ASME Codes and Standards, Niagara Mohawk  
 Nondestructive Examination (NDT) Training, Stone & Webster  
 American Welding Society (AWS) Welding Inspector Training, Stone & Webster  
 Transportation and Storage of Hazardous Materials, Naval Reserve, 1982  
 Leadership Management Education and Training, 1986  
 Software Quality Assurance Auditing, 1999  
 Parental Drug Association Lead Auditor Training, 2000  
 ISO 9001:2001 Transition Training for Lead Auditors, 2001

---

Directed day-to-day supplier oversight activities performed on behalf of sponsor and affiliate companies. Activities included planning work; assigning work activities; reviewing and approving inspection, surveillance and audit reports; developing personnel; interfacing with sponsor and customer personnel; administering group, department and corporate policies; and interfacing with various suppliers to support the integration and cross-functional utilization of group personnel.

**Yankee Atomic Electric Company**                      **10/95-01/97**  
***Senior Quality Assurance Engineer***

Supported the development and implementation of the Supplier Oversight Program for the Yankee Rowe, Maine Yankee, Vermont Yankee, Connecticut Yankee, Seabrook and Millstone Unit 1, 2 and 3 nuclear power stations. Also, served as the Yankee Atomic Electric Company (YAEC) representative to the Nuclear Utilities Procurement Issues Committee (NUPIC), and was responsible for coordinating audit activities for the aforementioned plants.

**Northeast Utilities**    **02/95-10/95**  
***Supervisor, Procurement Supplier Services***

Coordinated work activities for 11 individuals performing supplier oversight activities, including audits, inspections and surveillances. Initiated cost saving measures enabling future staff reductions, while maintaining or enhancing program commitments. Served as the Northeast Utilities representative to NUPIC, the Nuclear Fuel Users Forum, and the Nuclear Utilities Group.

**Northeast Utilities**    **06/87-02/95**  
***Senior Engineer, Procurement Supplier Services***

Planned, scheduled and performed supplier oversight activities, including Millstone Unit 2 fuel fabrication tasks. Actively interfaced with engineering organizations to identify and resolve nonconformances, recommend potential suppliers, and review and approve procurement documentation.

**Niagara Mohawk Power Corporation**                      **02/86-06/87**  
***Associate Quality Engineer***  
***Mechanical Quality Engineering***

Reviewed and approved plant maintenance and operations procedures. Performed plant system preliminary and preoperational testing surveillances. Also, provided contractor oversight for the Albany Steam

Station's Life Extension Study.

**Stone & Webster Engineering Corporation**  
**Quality Control Engineer**

**06/80-02/86**

Assigned to nuclear plant construction sites at Shoreham, N.Y.; Riverbend, La.; and Oswego, N.Y. Performed various QC/QA functions, which included inspecting pipe supports; mechanical equipment; heating, ventilation and air conditioning (HVAC) equipment; nondestructive examination (NDE) work; and structural steel. Performed preliminary and preoperational testing surveillances while assigned to a client organization. Supervised 10 individuals responsible for the inspection and turnover of plant systems and components.
