

January 21, 2011

The Honorable Kelly Ayotte
United States Senate
Washington, DC 20510

Dear Senator Ayotte:

I am writing to extend my congratulations on your election to the United States Senate. It will be an honor to work with you and your staff in the coming years.

The U. S. Nuclear Regulatory Commission (NRC) is an independent agency established by Congress in the Energy Reorganization Act of 1974 to ensure the safety of civilian nuclear power and use of nuclear materials. That critical mission entails broad responsibilities for the agency. The NRC currently licenses, inspects, and assesses the performance of 104 operating nuclear power plants, as well as many fuel cycle facilities and research and test reactors. Our staff is also conducting technical and safety reviews of applications for new reactors. Additionally, nuclear materials are in use at thousands of hospitals, universities, and other locations around the country. Each of these facilities and materials users presents different challenges for the NRC and requires that the NRC develop and sustain a diverse array of regulatory capabilities.

I cannot give enough credit for the NRC's effectiveness as a regulator to our hard-working, talented, and dedicated staff. I am continually impressed by their expertise, experience, and commitment to public service. In fact, for several years the NRC has been named the "*Best Place to Work*" in the Federal Government by the Partnership for Public Service.

Our mission of protecting public health and safety, common defense and security and the environment is critical both to the licensees we regulate and to the public we serve. I believe that the agency, our licensees, the public, and our stakeholders are all best served when the NRC is a firm and decisive regulator. The NRC has established a sound framework to keep current nuclear plants safe and secure as well as meet emerging challenges. We also continually assess and strive to improve our efforts.

If a briefing from our staff would be helpful to your office, please contact Rebecca Schmidt, Director of Congressional Affairs, at 301-415-1776. We would be glad to discuss our work with you.

Again, congratulations and I look forward to working with you.

Sincerely,

/RA/

Gregory B. Jaczko

January 21, 2011

The Honorable Richard Blumenthal
United States Senate
Washington, DC 20510

Dear Senator Blumenthal:

I am writing to extend my congratulations on your election to the United States Senate. It will be an honor to work with you and your staff in the coming years.
