MEMORANDUM TO: Those on the Attached List

FROM: James T. Wiggins, Director */RA/ R. Mitchell for*
Office of Nuclear Security and Incident Response

SUBJECT: NOTIFICATION OF NUREG/BR-0314 "PROTECTING OUR
NATION" REVISION 2

The purpose of this memorandum is to give notification of the forthcoming revision to NUREG/BR-0314 "Protecting Our Nation," which my Office will request your review and concurrence. Following the last revision, the Office of Nuclear Security and Incident Response (NSIR) was tasked by the Executive Director for Operations to update NUREG/BR-0314 on a biannual basis. NUREG/BR-0314 was first published in September 2004 and revised in 2009. The purpose of NUREG/BR-0314 is to describe the planned and progressive approach the Nuclear Regulatory Commission (NRC) uses to regulate security programs for the Nation's nuclear facilities and radioactive materials. The revision and updating of NUREG/BR-0314 requires numerous interactions with other NRC offices, including your office. Accordingly, NSIR has established a working group that will coordinate with your staff for the revision of NUREG/BR-0314.

It is important that the Agency continues to communicate to the public the many actions taken to improve security since September 11, 2001. Publishing an updated NUREG/BR-0314 will support the Agency's commitment to openness by providing accurate and timely information to the public. Thank you in advance for your support to this important task and please contact the individuals below should there be any questions.
