Dear Mr. Baker:

Enclosed please find NRC Form 7, which requests an amendment to license PXB139.00. License PXB139.00 currently authorizes Schlumberger Technology Corporation (STC) to export certain byproduct material contained in sealed sources and associated equipment to an affiliated company, Schlumberger Middle East, S.A. (SME), in Iraq, a country currently on the NRC embargoed destination list provided in 10 C.F.R. § 110.28. STC is requesting the addition of a second ultimate consignee with no other changes to the license. The additional ultimate consignee is:

Oilfield Contractors, Inc. (OCI)  
Erbil, Kurdistan, Iraq.

OCI will use these byproduct materials in connection with oilfield service activities (e.g. well logging and hydraulic fracturing) that it conducts in Iraq. All relevant information required by 10 C.F.R. § 110.32 for this specific license application is included, with the exception of the Recipient Authorization called for in Part E, Block 17a; this information will be provided to the NRC prior to any exports to this consignee using license PXB139.00. We request that the NRC issue this amendment for the remainder of the term of license PXB139.00.

Also enclosed is completed NRC Form 629, to authorize payment of the required fee, in the amount of \$9,800, by credit card. If additional fees are required, please contact me so that I can ensure prompt payment.
