

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION
ATOMIC SAFETY AND LICENSING BOARD

Before Administrative Judges:

G. Paul Bollwerk, III, Chairman
Dr. Kaye D. Lathrop
Dr. Craig M. White

In the Matter of

AREVA ENRICHMENT SERVICES, LLC

(Eagle Rock Enrichment Facility)

Docket No. 70-7015-ML

ASLBP No. 10-899-02-ML-BD01

January 28, 2011

MEMORANDUM AND ORDER

(Transcript Corrections; Availability of Exhibits; Proposed Findings)

In the Licensing Board's December 17, 2010 memorandum and order, we requested that transcript corrections associated with the evidentiary hearing on safety-related matters be provided within seven days of the date of the close of the hearing. See Licensing Board Memorandum and Order (Providing Presentation Topics and Administrative Directives Associated with Mandatory Hearing on Safety Matters) (Dec. 17, 2010) at 14 (unpublished). We also indicated that we anticipated the hearing transcript would be available within two business days after the close of the hearing. See id. at 13. We have been advised, however, that because of formatting issues, the earliest the transcript of the January 25, 2011 hearing is likely to be made available to the parties is today. Accordingly, the Board directs that any transcript corrections proposed by the parties should be provided on or before Friday, February 4, 2011.

Additionally, the Board wishes to advise the parties that because of a document processing delay associated with the recent inclement weather in the Washington, D.C. area, the official copies of the documentary materials admitted as exhibits in the proceeding are not yet available in the agency's ADAMS electronic document management system. Copies of the

official exhibits currently are available in the Digital Data Management System, along with the video of the proceeding.

Finally, the Board wishes to note relative to the parties' proposed findings of fact and conclusions of law that it anticipates those filings will include a discussion of (1) the parties' positions regarding the matters raised in the various Board written questions that were not the subject of the parties' presentations at the January 25 hearing; and (2) the nature of the safety findings the Board must make in the context of this mandatory hearing.

It is so ORDERED.

FOR THE ATOMIC SAFETY
AND LICENSING BOARD
