

Department of Energy

Washington, DC 20585

January 27, 2011

Attention: Document Control Desk
Robert Johnson,
Chief Licensing Branch
Division of Spent Fuel Storage and Transportation,
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

The U. S. Department of Energy (DOE) request the renewal of the Nuclear Regulatory Commission (NRC) Certificate of Compliance (CoC) USA/9315/B(U)F-96 for the Model ES-3100 shipping container. This request coincides with the current amendment for the NRC CoC USA/9315/B(U)F-96 (Amendment 10), which is the final stages of approval. As Amendment 10 represents the latest information and updates for the ES-3100, the requirements of 10 CFR 71.38 (c) are met. Since the current NRC CoC expires on April 30, 2011, this submittal meets the requirements of 10 CFR 71.38(b).

Electronic copies of this request are being sent to Robert Johnson, Chief Licensing Branch and to Pierre Saverot the NRC technical lead for review of Amendment 10 to the NRC CoC USA/9315/B(U)F-96.

If you have any questions, please feel free to contact me at 301-903-5513.
