OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I want to thank the NRC staff for its thoughtful and considered work in drafting new regulation for the nuclear community. Certainly, the most important goal is the protection of the health and safety of the public. I do have a few comments, speaking only as a private citizen with considerable career experience in the nuclear industry, on the proposed changes to 10CFR73.

Having reviewed the draft rule and public comments provided by other facilities and the National Organization of Test, Research, and Training Reactors (TRTR), I would like to provide input on the proposed 10 CFR Part 73 Rulemaking (NRC-2008-0619) as published in the Federal Register Vol. 75 No.138 - Tuesday, July 20, 2010.

I find the proposed rule adds additional requirements for security at RTR facilities that will further **limit student, faculty and researcher access** and **divert additional resources from our educational and research missions**.

I support the comments submitted by TRTR (NRC-2008-0619-0019).

I appreciate the opportunity to provide comments on this important proposal.

Please feel free to contact me with questions.
