Andy,

Based on my experience with the safety RAIs, the due date should tier from the transmittal letter date, but it does not appear that you are issuing letters to FPL (only emails). I initially staged this response for 17MAR11 based on the date at the top of the RAI attachment, not your email date stamp. However, I agree with you that your email date should be the seed for the 45-day clock and, accordingly, I will reset our response date to Friday 18MAR11 as you suggested.

Thanks.

Rick

Rick, Steve,

Although we discussed the due date for this RAI, I didn't include it in my email to you. (I realized after the fact that my original email was based on the wrong model.) So I wanted to be clear about the date. As we discussed, we've requested a response within 45 days. Based on the 2/1 transmission date, the due date is March 18, 2011. If you have any questions, please let me know.
