By letter dated July 16, 2010, in accordance with the provisions of 10 CFR 50.4 and 10 CFR 50.90, the FirstEnergy Nuclear Operating Company (FENOC) submitted a request for an amendment to the Facility Operating License (FOL) for the Davis-Besse Nuclear Power Station (DBNPS) relative to incorporation of a cyber security plan. The amendment request included the proposed cyber security plan, proposed changes to Section 2.D of the FOL, and a proposed cyber security plan implementation schedule. By letter dated November 23, 2010, FENOC submitted a revised cyber security plan that amended Section 2.1, "Scope and Purpose," of the DBNPS Cyber Security Plan to clarify the balance of plant structures, systems, and components that will be included in the scope of the cyber security program.

By letter dated January 20, 2011, the Nuclear Regulatory Commission (NRC) staff requested additional information to complete its review. Attachment 1 provides responses to the NRC staff's questions. FENOC will submit a new version of the DBNPS Cyber Security Plan to incorporate changes based on these responses to the requests for additional information by April 1, 2011.
