RE: Uranium One's Irigaray-Christensen Ranch Chapter 11 Permit Update Application, Permit No. 478, TFN 4 1/399

Dear Mrs. Wichers:

On March 25, 2010, during a meeting held in the District III offices, you and your staff outlined a list of priorities for completing a number of permitting actions with the Land Quality Division. These permitting actions listed in order of your priority were (1) completing the permit transfer from COGEMA to Uranium One; (2) gaining approval of the Christensen Ranch Well Field No. 7 data package; (3) gaining approval of the Moore Ranch mining permit application; and (4) approval of the Permit No. 478 Chapter 11 update application.

All of these permitting items except (4), the Chapter 11 update package, have been completed. This office would appreciate hearing Uranium One's schedule for responding to those review comments listed in Glenn Mooney's letter of March 15, 2010.

If you have any questions regarding this matter, please contact me or Glenn Mooney in the District III Office.

Sincerely,

Mark Rogaczewski
District III Supervisor
