(NOTE: This will be used as the Documents Title in ADAMS)**LEFT MESSAGE:**

The NRC or an Agreement State performs a safety evaluation of sealed sources before authorizing a manufacturer or distributor to distribute the sources to specific licensees. The safety evaluation is documented in a Sealed Source and Device Registration (SSDR) Certificate. The licensee's letter dated January 20, 2011 did not provide the Sealed Source and Device Registration (SSDR).

The licensee must contact the manufacturers which are still in business today to obtain the SSDR certificate numbers. We can only authorize approved sealed sources on NRC specific licenses.
