Project 692

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555

Subject: Transmittal of CE NPSD-1186-A, "Technical Justification for the Risk Informed Modification to Selected Required Action End States for CEOG Member PWRs"

Reference: Stuart A. Richards (US NRC) to Richard Bernier (CEOG Chairman), US NRC letter enclosing Safety Evaluation by the Office of Nuclear Reactor Regulation related to Combustion Engineering Owners Group Topical Report CE NPSD-1186, Rev 00, dated July 17, 2001

The Combustion Engineering Owners Group transmits herewith the approved version of CE NPSD-1186-A, Rev 00 as requested in the reference Safety Evaluation. This report is non-proprietary and may be placed in the public electronic reading room without modification. One (1) unbound copy of the report is provided for NRC use.

Please feel free to call me at 623-393-5882 or call Gordon Bischoff, CEOG Project Office, at 860-731-6200 if you have any questions,

Very truly yours,

Richard Bernier
Chairman, CE Owners Group
