SUBJECT: DISCUSSION OF LICENSEE AMENDMENT REQUEST FOR THE RELEASE
OF A FACILITY FOR UNRESTRICTED USE

On the above date, the Region III Nuclear Regulatory Commission (NRC) staff contacted the licensee to discuss the status of the license amendment request dated January 12, 2011 for the release of a facility located in Holland, Michigan for unrestricted use (ML110130614). During the conversation, the licensee requested the license address be changed to 2011 Bailey Street, Dearborn, Michigan, 48124. Additionally, the licensee was informed that the amendment request is solely for a license amendment to the Material License Number 21-26460-01, which authorizes possession of byproduct material. A separate request will be necessary to remove the facility from the distribution Material License Number 21-26460-02E. As a reminder, license number 21-26460-02E does not authorize the possession or use of byproduct material, but authorizes distribution from locations listed on the license.
