Hi Jim,

Thanks for following up. I checked with Amy P. and there were not any requests for a paper copy. But good to know there are extras, just in case.

Jenny,

Do you know if there is any interest from the Congressional committees and delegations regarding obtaining a hard copy of the Generic EIS for In-situ Leach Uranium Milling Facilities (NUREG-1910)?

I have copies in my office that could be provided.

Thanks,  
Jim
