Dear Ms. Owens:

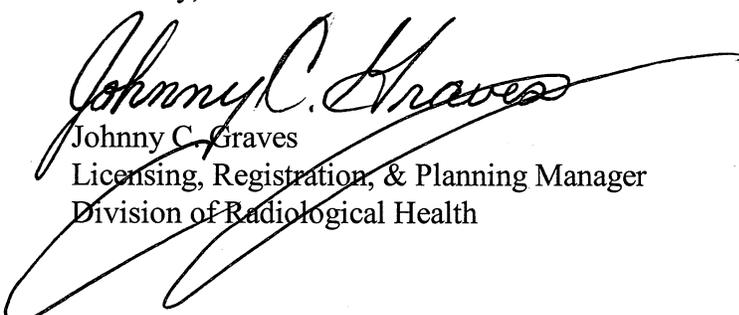

SUBJECT: Application for NRC Import License IW029

This letter acknowledges your letter dated January 21, 2011, with attachments, and Follow-up Information dated February 2, 2011, concerning the import license application from EnergySolutions for the transfer of radioactive waste from Germany to Duratek (EnergySolutions) facilities in Tennessee.

Upon review of this information and the references to the authorizations granted by the Tennessee Radioactive Material Licenses issued to Duratek, the Division finds no technical reason to prohibit the processing of this described waste at Duratek facilities in Tennessee.

Thank you for the opportunity to comment on this application.

Sincerely,

Johnny C. Graves
Licensing, Registration, & Planning Manager
