Subject: License termination request

Licensee: Joseph Robinson, M.D., PC
License Number: 19-31093-01
Docket Number: 030-37041
Mail Control: 574168

Dear Dr. Robinson,

As per our phone conversation today, your license action will be processed as a termination request. Additional information is needed to complete the request. The information needed is summarized in NUREG 1556 Volume 9 Revision 2 and can be found in section 11.1:
http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/sr1556v9r2-final.pdf#11

You should consider submitting an NRC form 314 which can be found at:
http://www.nrc.gov/reading-rm/doc-collections/forms/nrc314.pdf

The additional information requested is as follows:

- You indicated that your Technician could verify the location of the sealed sources from 106 Irving Street, NW, Suite 3600. Please have the technician call me tomorrow at 610-337-5076 with this information.
    - State when and where the sealed sources were transferred, include a copy of the license of the entity to which they were transferred, and forward a copy of the latest leak test record for the sources. Provide documentation of receipt of the sources by the transferee.
- Confirm that all required postings were removed from Suite 3600.
- State what was done with waste prior to leaving the facility.

Once we receive the additional information requested, we should be able to finalize the processing of your license termination. You may respond to my attention in writing by letter or fax (610-337-5269), referencing mail control 574168. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your license action.

Regards,
Robin
