ATTN: Document Control Desk
Director, Spent Fuel Project Office
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Duke Energy Carolinas, LLC
Oconee Nuclear Site, Units 1, 2, and 3
Renewed Operating Licenses: DPR-38, 47, and 55
Docket Numbers: 50-269, 270, and 287
Re-Registration for Use of General License Spent Fuel Cask Number 63

The purpose of this letter is to correct an error in the original February 12, 2002, General License Spent fuel Cask Number 63, 30-day notification letter. Specifically, the original letter referenced Amendment 2 of the Cask Certificate of Compliance (72-1004) when in actuality; Amendment 3 was in-effect at the time of the Dry Storage Canister (DSC) [cask] loading. TRANSNUCLEAR, the DSC and storage module vendor, has issued a revision to the fabrication certificate of conformance that demonstrates the canister and the corresponding storage module in which it is stored, conforms to Amendment 3.

As such, in accordance with 10CFR72.212 (b)(1)(ii), Duke Energy Carolinas, LLC (Duke Energy), hereby notifies the Commission of storage of dry fuel under Cask Certificate of Compliance 72-1004, Amendment 3. The date of storage was February 1, 2002, and the cask load number was 63. The cask model is the Standardized NUHOMS 24P and the dry storage canister identification number is ONS-24P-R63. The physical storage location at Oconee Nuclear Station's Independent Spent Fuel Storage Installation is Module E-33.

If there are any questions regarding this registration, please contact Stephen C. Newman, Oconee Regulatory Compliance Engineer, at (864) 873-4388.

Sincerely,

T. Preston Gillespie, Jr.
Vice President,
Oconee Nuclear Station
