ATTN: Document Control Desk
Director, Spent Fuel Project Office
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Duke Energy Carolinas, LLC
Oconee Nuclear Site, Units 1, 2, and 3
Renewed Operating Licenses: DPR-38, 47, and 55
Docket Numbers: 50-269, 270, and 287
Re-registration for Use of General License Spent Fuel Cask Number 116

The purpose of this letter is to correct a date error in the original January 6, 2011, 30-day notification letter for General License Spent fuel Cask Number 116. Specifically, this letter stated that the storage occurred on Friday December 10, 2010, when in actuality, the storage occurred on Saturday December 11, 2010; consequently, this letter corrects the date and replaces the earlier letter sent to the NRC.

As such, in accordance with 10CFR72.212 (b)(1)(ii), Duke Energy Carolinas, LLC (Duke Energy), hereby notifies the Commission of storage of dry fuel under Cask Certificate of Compliance 72-1004, Amendment 9. The date of storage was December 11, 2010, and the cask load number was 116. The cask model is the Standardized NUHOMS 24PHB and the dry storage canister identification number is ONS-24PHBL-HZ116. The physical storage location at Oconee Nuclear Station's Independent Spent Fuel Storage Installation is Module W-64.

If there are any questions regarding this registration, please contact Stephen C. Newman, Oconee Regulatory Compliance Lead Engineer, at (864) 873-4388.

Sincerely,

T. Preston Gillespie, Jr.
Vice President,
Oconee Nuclear Station
