

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 12, 2011

Mr. Michael J. Pacilio
President and Chief Nuclear Officer
Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: OYSTER CREEK NUCLEAR GENERATING STATION – NOTIFICATION OF
INTENT TO PERMANENTLY CEASE OPERATIONS (TAC NO. ME5401)

Dear Mr. Pacilio:

This letter acknowledges and confirms receipt of your letter dated January 7, 2011 (Agencywide Documents Access and Management System Accession No. ML110070507), submitted pursuant to Title 10 of the *Code of Federal Regulations*, Part 50, Section 50.82(a)(1)(i). That letter informed the Nuclear Regulatory Commission (NRC) of your intent to permanently cease operations at the Oyster Creek Nuclear Generating Station no later than December 31, 2019, contingent upon issuance of a draft New Jersey Pollution Discharge Elimination System Surface Water Permit. The draft permit was issued on June 1, 2011.

We will continue to verify the safe operation of the plant via the planned oversight under the Reactor Oversight Process. Additionally, the NRC staff will factor the new date for cessation of operations into planned oversight activities related to operational decisions.

Sincerely,

A handwritten signature in black ink that reads "G. Edward Miller".

G. Edward Miller, Project Manager
Plant Licensing Branch I-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

Docket No. 50-219
