SUBJECT: SAN JUAN BAUTISTA SCHOOL OF MEDICINE, LICENSE AMENDMENT,
CONTROL NO. 574027

Dear Dr. Brugal:

This refers to your license amendment request. Enclosed with this letter is the amended license authorizing storage only under the supervision of your Radiation Safety Officer. Please note that the term of your amended license is 2 years and that you must amend your NRC license prior to medical use of licensed material in the future. In addition, we understand from your letter dated November 21, 2010, and from the telephone conversation with Mr. Lester Tripp on July 6, 2010, that you have never possessed licensed material and that you are planning to request new physician authorized users in the future.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).
